Subject: Re: FW: Club 20 and the Roan Plateau

 my apologies to reeves. in my letter to the congressmen, udall and salazar, i mentioned that i hadn't remembered voting on the RMP. but rachel reminded me we'd voted on a roan plateau policy, and though it was a close vote, a policy consistent with the RMP was adopted. so reeves had every right to send the letter. 

of course, i had to respectfully disagree, and several counties backed me up on that concern.

so, no firestorm. just a memory sprinkle with fireworks :>)
