

Marilyn Musgrave
Member of Congress

FACE THE STATE

Dear Ms. Markey:

This letter is a follow-up to my letter dated June 18th requesting your presence in three confirmed debates in our campaign for Colorado's 4th Congressional District. I've yet to hear from you or your campaign whether you will be attending the scheduled debates, and giving the voters several meaningful and substantive opportunities to hear our very different policy positions and visions for the 4th Congressional District.

I have agreed to the following debates:

1. Fort Collins; sponsored by the Coloradoan
2. Greeley; co-sponsored by the Young Democrats and Young Republicans October 21st.
3. A live broadcast radio debate sponsored by KCOL, 600AM (Greeley Tribune invited to co-host), August 16th.

I believe it is our responsibility as candidates for Congress to present our positions directly to the voters through civilized public debates, without the filter of false campaign commercials coming from deceptive special interest groups like the reprehensible and misleading television ads paid for by the Defenders of Wildlife Action Fund, the same radical environmental organization that endorses you.

I represent a positive, practical agenda for reducing gas prices for consumers of the 4th District. I am the only candidate in this race that recognizes a need for bi-partisan cooperation between Congress and the White House to open up America's natural resources for domestic drilling, while at the same time encouraging and incentivizing alternative energy technologies and production to gradually reduce carbon emissions and greenhouse gasses that will truly protect our environment for future generations to come.

I hope to hear from you soon.

Sincerely,

Marilyn Musgrave
