Subject: Please give me a call ASAP...

We've had calls here about Weld County Sherriffs posted outside vote centers. I spoke to Commander Spaulding there and learned that this is the case—deputies have been requested by your office at five centers for the entire day. In light of some tactics in play this year (e-mails sent to voters saying they will be arrested if they try to vote and have unpaid parking tickets or bench warrants, etc.), couldn't his cause intimidation? Please give me a call to discuss. Thanks.
