Subject: Ken Gordon as Secretary of State

Dear Governor and/or staff:

I don't know where to start in my support for Ken Gordon for Secretary of State.

- He narrowly lost the election to Mike Coffman, so we already know nearly half the electorate wanted him as SOS
- He's an honest man, something that seems to be in short supply these days
- He's completely dedicated to fair and effective elections
- He has served the State of Colorado very well
- Although my second choice would be Andrew Romanoff, Speaker Romanoff's got a very bright future ahead of him. I'm not saying Ken Gordon is old, but he's at the other end of his career track, and besides, I hear that Andrew Romanoff is a candidate for something or other in the Obama administration, so he may not be available.
- He has my and my husband's personal support for anything he wants to do
- No, I am not a relative or close friend. I only met Senator Gordon once, at an environmental forum. But I've seen him at other events he's sponsored, the George Lakoff talk, drumming up support for Referenda C and D a few years back. And his constituent emails are the only ones I look forward to getting. I read every word. He's always responded when I have a question or want to challenge him on an issue.
- It would be dumb not to choose Ken Gordon.

Very sincerely,

Rev. Judith Clausen
